

Safety Data Sheet for 105

1. IDENTIFICATION OF PRODUCT and COMPANY

PRODUCT NAME - CONCEPT DELTA FORCE 2000

PRODUCTS COVERED - 105

INTENDED USE - For professional use only. For Professional Use ONLY.

SUPPLIER - Concept Chemicals & Coatings P.O. Box 9, Bramhall, Stockport, Cheshire. SK7 1JF

Emergency Tele. - 0161-335-0213

2. COMPOSITION/INFORMATION of INGREDIENTS

<2 % SODIUM HYDROXIDE

Symbols C Risk Phrases 35

Symbols Key - T=Toxic Xn=Harmful C=Corrosive Xi=Irritant E=Explosive O=Oxidising F+=Extremely Flammable

F=Highly Flammable N=Environmentally Hazardous

Details of Risk Phrases

R35 Causes severe burns

3. HAZARDS IDENTIFICATION

HAZARDS

Irritant

RISKS

Risk of serious damage to eyes.

Irritating to the skin

SAFETY ADVICE

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice

Wear eye/face protection

4. FIRST AID MEASURES

ACTION ON INHALATION - Remove to fresh air, keep warm and at rest. If breathing is irregular or stopped give artificial respiration. Give nothing by mouth. If unconscious place in recovery position and seek medical advice.

ACTION ON SKIN CONTACT - Remove contaminated clothing. Wash skin thoroughly with soap and water or use a proprietary skin cleaner. Do NOT use solvents or thinners.

ACTION ON EYE CONTAMINATION - Contact lenses should be removed. Irrigate copiously with clean, fresh water for at least 10 mins. holding the eyelids apart, seek medical advice.

ACTION ON SWALLOWING - If accidentally swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.

GENERAL FIRST AID ADVICE - In all cases of doubt or when symptoms persist seek medical attention. Never give anything by mouth to an unconscious person.

5. FIRE FIGHTING MEASURES

RECOMMENDED EXTINGUISHING MEDIA - Carbon-Dioxide, Dry Powder, Water Spray Mist, Alcohol Resistant Foam.

DO NOT USE - .

FIRE FIGHTING INSTRUCTIONS - Fire will produce smoke containing hazardous products of combustion (see Section 10). Decomposition products may be a hazard to health. Appropriate self-contained breathing apparatus may be required. Cool closed containers exposed to fire with a water spray. Do not allow run off from fire fighting to enter drains or water courses.

6. ACCIDENTAL RELEASE MEASURES

Contain and collect spillages with non-combustible absorbent materials e.g. sand, earth and place in suitable container for

disposal in accordance with the waste regulations. Clean preferably with a detergent, avoid use of solvents. Do not allow to enter drains or water courses. If it does the local water company should be contacted immediately, in case of contamination of streams rivers or lakes the National Rivers Authority. Exclude sources of ignition and ventilate the area. Exclude non-essential personnel. Avoid breathing vapours. Refer to protective measures listed in sect. 7&8.

7. STORAGE AND HANDLING

STORAGE PRECAUTIONS - Observe the label precautions. Store between 5 & 25°C in a dry well ventilated place away from sources of heat, ignition and direct sunlight. No smoking. Prevent unauthorised access. Containers which are opened should be properly resealed and kept upright to prevent leakage. Store away from oxidising agents and strongly alkaline and acidic materials. The principles contained in the HSE's guidance note Storage of Packaged Dangerous Substances should be observed when storing this product.

HANDLING PRECAUTIONS - Vapours are heavier than air and may spread along floors. They may form explosive mixtures with air. Prevent creation of explosive or flammable mixtures and avoid vapour concs higher than the OEL. Do not use in areas where potential sources of ignition exist. Electrical equipment should be protected to the appropriate standard. Use non sparking tools & exclude sources of heat, sparks & flames. Keep container tightly closed. Never use pressure to empty, container is not a pressure vessel. Always keep in containers made of the same material as the supply container. Avoid skin & eye contact. For personal protection see Sect.8. Good housekeeping and regular removal of waste materials will minimise risks.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

OCCUPATIONAL EXPOSURE LIMITS

NO CHEMICALS PRESENT WITH EXPOSURE LIMITS

ENGINEERING PRECAUTIONS - Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If extraction methods are insufficient to maintain concentrations of particulates and/or solvent vapours below relevant OEL's, suitable respiratory protective equipment should be worn.

GENERAL PRECAUTIONS - All ppe, including rpe, used to control exposure to hazardous substances must be selected to meet the requirements of the COSHH regulations. Hygiene measures: keep away from food, drink and animal feeding stuffs. Wash hands before breaks and at the end of workday.

RESPIRATORY PROTECTION - Air fed respiratory equipment should be worn when sprayed if levels cannot be controlled below OEL's and engineering methods cannot be reasonably improved.

HAND PROTECTION - Full physical protection is best. Seek relevant advice from glove manufacturers. Barrier cream may be of help but should not be applied after exposure has occurred.

EYE PROTECTION - Eye protection designed to protect against liquid splashes should be worn.

SKIN PROTECTION - Cotton or cotton/synthetic overalls or coveralls are normally suitable. Grossly contaminated clothing should be removed and the skin washed with soap & water or a proprietary skin cleaner.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State - FLUID

Specific Gravity - 1.07

Solubility in Water - MISCIBLE

10. STABILITY AND REACTIVITY

Stable under the recommended storage & handling conditions (see Sect.7). In a fire, hazardous decomposition products such as smoke, carbon monoxide, carbon dioxide, and oxides of nitrogen may be produced. Keep away from oxidising agents and strongly alkaline and acid materials to prevent the possibility of an exothermic reaction.

11. TOXICOLOGICAL INFORMATION

Splashes in the eye will cause irritation and possible irreversible eye damage. Skin exposure may well result in typical allergic skin reactions, redness, swelling, blistering & itching. Ingestion will result in irritation of the gastrointestinal tissues resulting in pain, vomiting, abdominal tenderness, nausea, blood in vomit & faeces. Respiratory exposure may cause acute irritation &/or sensitization of the respiratory system resulting in asthmatic symptoms. Repeated exposure may lead to permanent respiratory disability.

12. ECOLOGICAL INFORMATION

There is no data available on the product itself. The product should not be allowed to enter drains or water courses or be deposited where it can affect ground or surface waters.

13. DISPOSAL CONSIDERATIONS

Do not allow into drains or water courses or dispose of where ground or surface waters may be affected. Wastes, including emptied containers, are controlled wastes and should be disposed of in accordance with regulations made under the Control of Pollution (1974) & Environmental Protection (1990) Acts. Using the information in this data sheet, advice should be obtained from the Waste Regulation Authority whether the Special Waste Regulations 1980 apply.

14. TRANSPORT INFORMATION

For Transport Information other than UK Road or Rail please contact your supplier.

16. OTHER INFORMATION

Date of Origination - 26/07/00

Date of Last Revision - 26/07/00

The information contained in this safety data sheet is provided in accordance with the requirements of the Chemicals (Hazard Information & Packaging) Regulations. The product should not be used for purposes other than those shown in sect.1 without first referring to the supplier and obtaining written instructions. As the specific conditions of use of the product are outside of the suppliers control, the user is responsible for ensuring that the requirements of relevant legislation are complied with.

The information contained in this Safety Data Sheet is based on the present state of knowledge and current national legislation. It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications.
